

# HOPE

Meredith Jones/Nathan Jones © Wellspring Worship 2016

*Intro* – **D A BM G**

*Verse 1*

**A**                    **BM G**  
powerless and lost, desperate and unsure  
**A**                    **BM G**  
Wandering alone  
Broken and undone  
Searching for someone  
To fill this longing soul

*Chorus*

**D**  
You bring hope to the hopeless  
**A**  
Light in the darkness  
                 **BM**                    **G**  
When all seems lost, You lead us on  
You bring strength for the journey  
Patience in waiting  
When our faith is low, you lead us on with hope

*Verse 2*

Stronger now I'm found  
Steady and secure  
Now that I'm with You  
Healed and I'm restored  
Full of faith and truth  
You have made me new

*Bridge*

**D**                                    **A**                                    **BM**  
At just the right time, at just the right time  
   **G**                                    **D**  
Hope comes alive, at just the right time                    x4 (straight into chorus at end of 4<sup>th</sup> bridge)
